

FOREWORD

This body repair manual introduces to you fundamental knowledge necessary for servicing the bodies of Daihatsu vehicles and basic operations thereof. Furthermore, this manual describes the replacement procedures for principal sheet panels of the M300 series including their welding methods as well as those seal applying points

It is urged that every body repair technician be acquainted with accurate operations by making the most of this body repair manual in order that rationalized, efficient repairs and reliable body servicing operations may be carried out.

All information used in this body repair manual was in effect at time when the manual was printed. However, the specifications and procedures may be revised owing to continuing improvements in design without advance notice and without incurring any obligation to us.
